SH 360/SH 180 (Division Street) Construction begins

ARLINGTON—Work began this week to alleviate a major bottleneck for motorists at the State Highway 360/State Highway 180/Division Street interchange. The \$56 million project will reconstruct two Division Street bridges and the railroad bridge. Also included is the addition of shoulders on SH 360, improved ramp access to Division Street and new continuous frontage roads under the rail lines.

During construction, three lanes of traffic will be maintained on north and southbound SH 360. SH 180 will continue to have two lanes open both east and westbound. In several months, the existing interchange ramps will be closed to accommodate construction, but access will be maintained through the installation of temporary ramps.

The Texas Department of Transportation (TxDOT) awarded the project to W.W. Webber, LLC of Houston. The project is scheduled for completion by Fall 2011.

Project daily lane closures are accessible at: www.txdot.gov, KEYWORD: Road Conditions.
