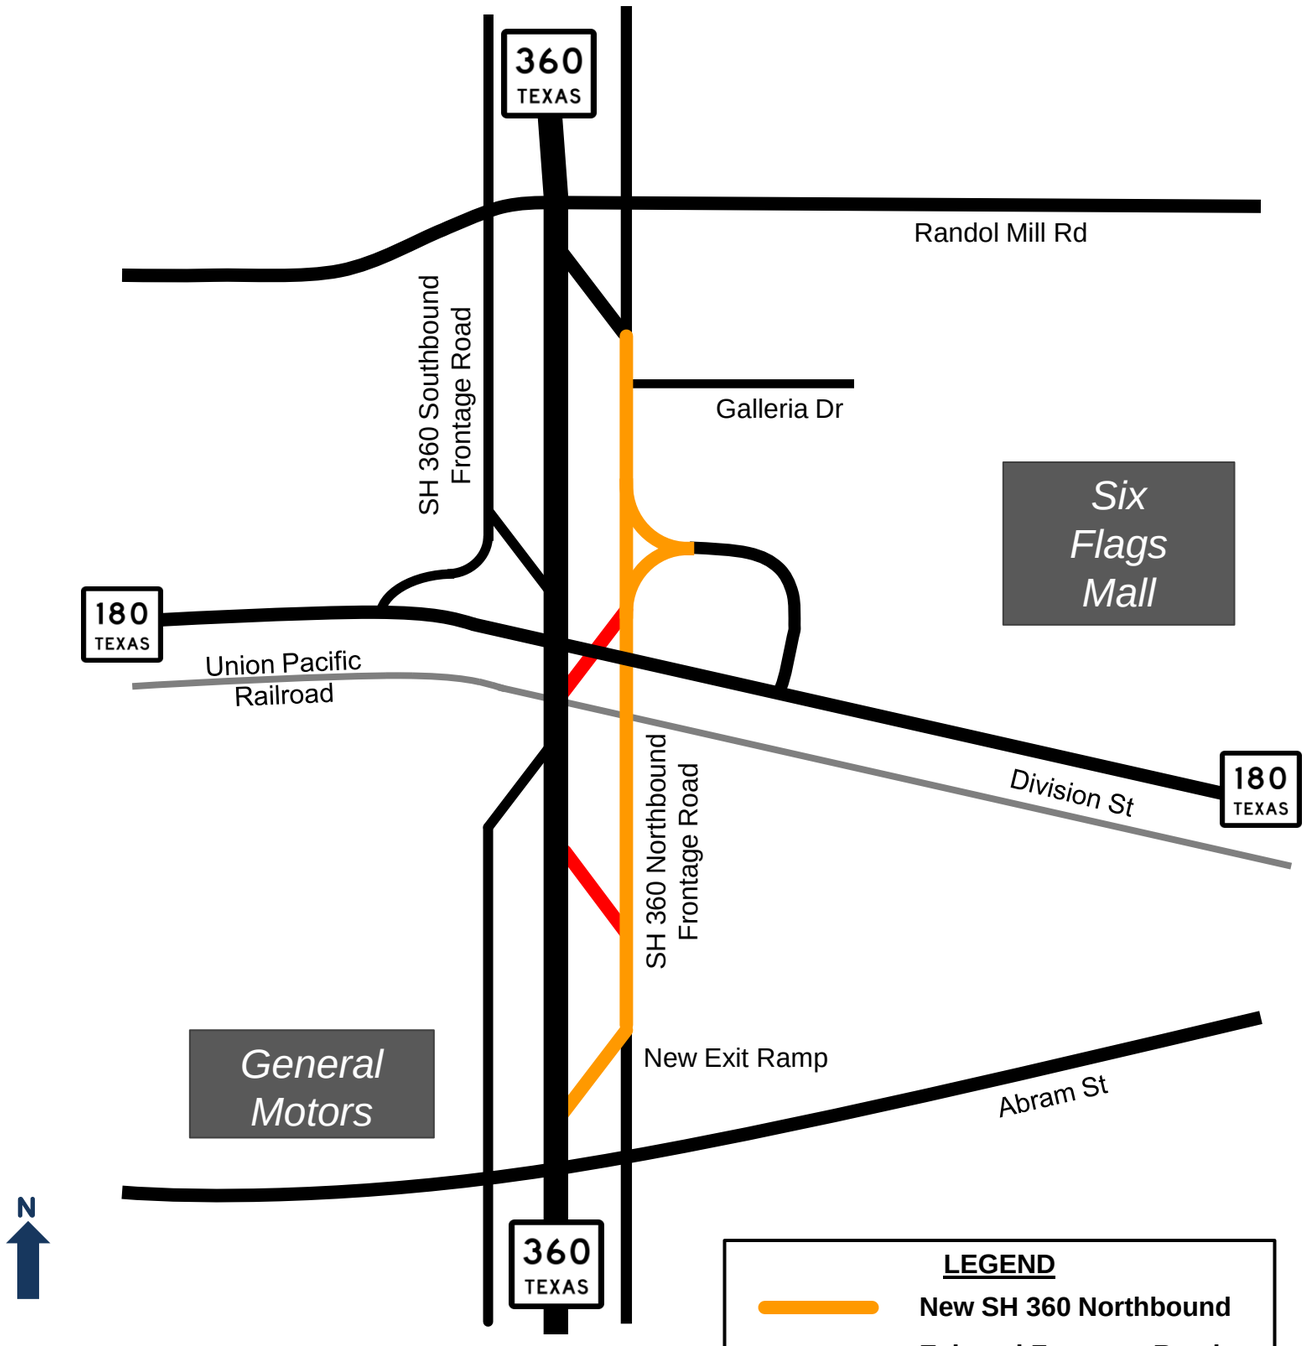
SH 360 NORTHBOUND FRONTAGE ROAD OPENING

Effective January 21, 2012



WHY: Opening new permanent SH 360 northbound frontage road and exit ramp to access SH 180/Division Street and Randol Mill Road.

WHAT: The new permanent SH 360 northbound exit ramp to Randol Mill Road will open north of Abram Street.

A new frontage road will also open between Abram Road and Randol Mill Road. This now connects the frontage road system under the Union Pacific Railroad bridge, creating a continuous frontage road system from I-20 to the Trinity River.

The new frontage road opening also completes the new access to SH 180/Division Street.

The SH 360 northbound entrance ramp from Abram Street will be closed. Traffic will be directed to the next entrance ramp.

In the coming months the permanent southbound frontage road and permanent access ramps to Division Street will be completed. Work will then focus on reconstructing the highway mainlanes while maintaining 3 lanes of traffic in each direction.

The project is scheduled for completion summer 2012.
